## ABOUT US;

KMG Shipping's main office is located in Turkey, Istanbul and maintains a vast network of agents present at our main ports of business throughout Turkey. We are always one phone call or e-mail away. Our 24/7, 365 work days a year service not only meets but surpasses the expectations of some of the world's largest companies. Istanbul Strait is known to for its changing and at times difficult weather conditions: Our staff is motivated, hardworking and helpful in maintaining any potential issues under control. Of key importance to any principal is its agent's professional management team and ability to drive business forward. KMG™ provides premium agency services ranging from an aggressive sales force to computerized sales, accounting, documentation and operations

By upholding KMG'S VALUES through all facets of operation, we open up opportunities to earn the trust of the owners and charterers and create long term business relationships. As we conduct our business throughout the Istanbul Strait, we have always been guided by our commitment to responsible behavior. We believe in fostering a culture of excellence and collaboration among our crew & staff.

KMG Shipping Agency & Shipchandler is official partner of Luk-oil Lubricants on Istanbul strait.

You need to keep your operations moving. That means having access to high-performance products and services, wherever your business takes you.

With Lukoil and KMG presence, you can rely on our network of technical service, customer service and our barge teams. They work tirelessly to ensure you can get access to the lubricants and technical services you need at Istanbul Protecting your fleet and minimising downtime is key. You can count on the quality of our products to keep your fleet moving

We keep one eye on what could happen next. Our technical experts have a range of solutions to monitor your fleet and help solve complex problems or operational goals you have. We're constantly seeking to mitigate risk and identify where small improvements can be made across multiple key areas of your fleet to help you save time and money.

Together, we can optimise your fleet's performance and find efficiencies. You can count on us to be with you for every voyage.
